

PARENT GUIDE TO
ASSESSMENT—
HOW CAN I TELL HOW WELL
MY CHILD IS DOING?
YEAR 7

Assessment at Ark-AA+

With the abandonment of national curriculum levels and the changes to the way the government assesses children in KS2 (Year 6 SATs) and KS4 (GCSEs), the Ark network has created a new assessment system which allows teachers, students and parents/carers to easily track progress from year 7 to year 11.

Grading

- Students' baseline KS2 scores are converted to a predicted new GCSE number. This conversion is based on the proportions of students who achieve each grade at KS2 compared to the proportions at GCSE.
- In KS3 and KS4, every long term, students do an assessment which is marked using GCSE number grades.
- These grades are **age-related grades**. They refer to a student's position in the performance distribution for their age group. These grades do not tell you what a student would get if they took a GCSE at that moment in time. So, for example, if a student gets a grade 9 in Year 7 Summer 2, it means we think they are performing as well as could be expected for their age group. It does not mean that they could get a 9 if they sat a GCSE English paper at that point.

Targets

- Our default target is for students to make + 1 grade of progress over the 5 years of secondary school, and to achieve a minimum of a grade 5 – whichever is the highest. A target of +1 means that the students are achieving a grade higher than their peers with the same starting points across the national cohort.
- As a grade 5 is considered the new 'good pass' at GCSE, we believe that every child should be striving to achieve this standard.
- The senior team moderates these targets for individual students to ensure that whilst the targets are challenging and aspirational, they are also achievable.

New GCSE grades

- Grades are age-related
- Target of + 1 grade over 5 years, minimum 5

End of year 6

Jack and Jill both get a 100 in their KS2 Sats.

This translates to a baseline GCSE grade of 4. Therefore, their Ark GCSE target is a 5.

Year 7 Autumn Term 1

Jack gets a grade 5 in his first English assessment. He has made above national average progress.

Jill gets a 4. She has made national average progress.

End of year 11

Jack gets a grade 5 in his English GCSE. He has made above national average progress, and he has met his Ark target.

Jill gets a 4 in her English GCSE. She has made national average progress, but she **hasn't** met the Ark target.

Implications of this grading system

- Staying at the same grade **is** making progress. Moving up one grade may not sound that impressive, but it is.
- You can get a grade 9 in year 7 – but it means something different from a grade 9 in year 11.
- Assessments get harder from term to term and year to year, so that a grade 6 in year 11 represents a higher standard than a grade 6 in year 8.
- When we are awarding these grades from term to term, we are making claims about how our students are doing against their national cohort. In order to make sure these claims are as robust as possible, we have to moderate within the network, use shared assessments, and reference externally wherever possible. We have three moderation days a year which help us do this.

How will you report my child's progress?

After each long term we will send home a report which shows how your child is performing in relation to their targets. The report will also show whether a teacher has concerns about your child's attendance in their subject, your child's effort in class, your child's behaviour in class and your child's homework.

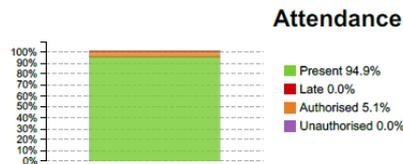

Once a year you will receive a full written report from every subject teacher which explains in more detail how your child is progressing. This report is shared as part of our parents' evenings and can be discussed with your child's individual teachers either as part of a meeting during parents evening or at another point.

We also believe it is important that our students understand their progress and so every child has a planner card which shows their most recent assessment data in every subject. At the moment, as year 7 students have not completed any assessments this planner card shows information about their base grades.

Example of Year 7 student planner card

This is your child's tutor and tutor group.

Mr L Morey
07-Dickens

This graph shows attendance and the breakdown of lates and any absences. Ideally the green proportion of the bar will be 95% or above.

Reading Age: 09:00

Your child's teacher is listed under the subject heading.

	KS Base	Yr Target	KS Target	On Track
English <i>Mr L Orrell</i>	3	4	5	●
Mathematics <i>Miss C Watt, Mrs R Antar</i>	2	3	5	●
Science <i>Ms D Pond</i>	2	3	5	●
Art <i>Miss J Bryce</i>	2	3	5	●
Catering <i>Mr T Cushion</i>	2	3	5	●

Ideally your child's reading age would be the same as their actual age. You can support your child by asking questions about their current reading book and encouraging them to read for pleasure.

KS Base-this grade is based on how your child achieved in the KS2 SATs compared to the performance of the national cohort.

For subjects which were not assessed in the KS2 SATs, the child's average performance in English and Mathematics has been used to create the KS Base.

Yr Target-the grade your child is expected to achieve by the end of the year.

KS Target-the grade your child is expected to achieve by the end of year 9

How am I doing?

- I'm on track to exceed my target - amazing!
- I'm on track to meet my target - could I exceed it?
- I'm not on track to meet my target - what can I do to change this?

Frequently asked questions

Why are all the targets the same when my child has strengths in particular subjects?

At the moment the targets are based on your child making at least +1 grade from their base grade or achieving a grade 5 (whichever is higher) by the end of year 9. At the end of each term, the senior leaders, Heads of Departments and teachers will look at each child's performance to check that the targets are appropriate. If a child is particularly good at a subject and is consistently performing at a grade higher than their target we can moderate their target accordingly. Similarly, particularly for students who need to make more than +1 grade from their base grade in order to achieve a 5, we can review targets if we feel they are too challenging for a child.

My child didn't do well in the KS2 SATs, does this mean that teachers do not expect them to do well now?

We know that some children may not have done well during their SATs and so use a range of information including reading ages, CAT tests and subject specific assessments to help us identify students who may have a target which may need moderating. If students work consistently hard they will have the opportunity to exceed their targets and/or change sets as appropriate. Targets are reviewed after each long term and any target changes will be highlighted to you and your child.

My child didn't do the KS2 SATs, how are their targets set?

If your child had teacher assessments from their KS2 SATs these will be used to create their baselines and targets. If we don't have any information regarding your child's prior performance, we will use information from a range of internal assessments to decide your child's baselines and targets.

My child's current working at grade is staying the same. Does this mean they aren't making progress?

No-staying the same grade is making progress as it means your child is keeping up with their peers. If your child makes accelerated progress their grade will increase and this represents more than nationally expected progress.

I still have questions, what should I do?

Year 7 Parents Evening is on Wednesday 25th January from 5pm-7.30pm. You will have an opportunity to read your child's report, have an appointment with your child's individual subject teachers to discuss their progress. Mrs Morey and the Data Team will be available throughout the evening to answer any questions about the assessment system.

If you have any questions and/or queries regarding the assessment system and would like to discuss them before the parents evening please email info@charteracademy.org.uk and the most appropriate member of staff will respond.
