Biometric System at Ark Charter Academy

I am pleased to inform you that we are successfully running the biometric system at Charter. This system is used for cashless catering, printing and copying.

The benefits of the system are:

- Improved security for handling cash transactions in the school
- Reduction in administration time and cost dealing with lost or forgotten cards/passwords/PINs
- Children will not have to remember to bring a card
- Reduction in queuing time

Ark Charter Academy will comply at all times with the General Data Protection Regulation (GDPR), the Data Protection Act 1998 and with the provisions of the Protection of Freedoms Act 2012 (which came into force in September 2013) regarding the use of biometric data. In order for your child to use the biometric system, one parent or guardian **will need to read, sign and return the consent form which is enclosed**. We will also offer an opportunity to opt out for those pupils who, upon consideration, would prefer to use alternative forms of identification.

Further information about biometrics systems is enclosed.

If you would like more information or the chance to discuss this further, please feel free to contact the school.

Background to the use of biometrics in school

For the sake of clarity, biometric information is information about someone's physical or behavioural characteristics that can be used to identify them. There are many possible biometrics, including for example, a digital photograph, fingerprint, or hand shapes. As part of our identity management systems, we will record a biometric measurement taken from a finger, but not a fingerprint image. The information is stored in a highly secure database and will only be used by the school to confirm who is using a range of services. In future we may use other biometric services where appropriate.

Our chosen solution allows us to use a secure database holding biometric data for use with a range of services. This means we will store the least amount of data possible. This reduces the risk of loss of data.

The data that is held cannot be used by any other agency for any other purpose. The school will not use the biometric information for any purpose other than that stated above. The school will store the biometric information collected securely in compliance with the Data Protection Act 1998. The school will not share this information with anyone else and will not unlawfully disclose it to any other person.

Current Legislation – The Protection of Freedoms Act 2012

This legislation requires schools to:

- Inform parents about the use of the biometric systems in the school and explain what applications use biometrics.
- Receive written permission from one parent if the school is to process biometric information for their child.
- Allow children to choose an alternative way of being identified if they wish.

If you do not wish your child to use the biometric system or your child chooses to use an alternative form of identification we will provide reasonable alternative arrangements that allow them to access current and future services.

Should you agree to the processing of your child's biometric information, it is important that you return the signed consent form below as soon as possible. Please note that when he/she leaves the school, or if for some other reason he/she ceases to use the biometric system, his/her biometric data will be permanently deleted.

If you would like to discuss this in more detail, please contact the school.
